DEDICATION

Ruskin once said, "The work of science is to substitute facts for appearance and demonstration for impression." Through the centuries science has progressed, at times with small steps and at times with great strides.

The theme of our Annual is "Television", a very recent contribution of science to education and recreation.

In the spirit of Ruskin the Senior Class of 1952 wishes to dedicate its "Syllabus" to the advancement of science. May it continue to march ever forward.

STUDIO ONE ...

This is our school, Sheridan High School, the building which rose from the ashes of a fire one quarter of a century ago.

From the year 1928 until 1931 it was necessary that classes be held in rooms up town. This practice was very inconvenient, but it was the only solution.

In 1931 the last brick of our new building was laid. Teachers and students moved gratefully into the building.

It seemed quite large at that time. "Plenty of room," they said. A large gym which seated 2000 people, facilities for home economic, agriculture, science, and commerce were welcome additions.

Who would have thought that in such a brief span of time this hall of learning would be so inadequate?

One year ago, through the untiring efforts of the PTA and others, a beautiful new wing was completed. This addition houses a much needed cafeteria, grade rooms, and music and art rooms.

We are indeed proud of you, Sheridan High School. Whatever faults you may have; however crowded you may be; you are still OUR school and we love you dearly.

MR. JEAN MACE, TRUSTEE

We are extremely fortunate in having Mr. Mace as our trustee. He is a good friend of the school and as such is interested in all of our school problems and activities.

"Here truth must triumph, honor must prevail."

A LETTER TO MR. HOBBS

Dear Mr. Hobbs,

From the 1952 Seniors rise three cheers for you, who, as director of our school, have guided us most admirably toward the highest ideals.

Through five happy school years we have looked to you for leadership and help. Each academic year is a doorway which opens to reveal learning just a little more advanced. Through each of these doorways you have led us until, on Commencement night, we pass through the last doorway of high school education. It is at this point that you are there to steady us as you have so many times in the past; sixty-one Seniors who feel so mature, but who have passed only the first milestone in life.

As high school students we have had many problems which to us seemed to loom as high as mountains, but you have taught us the way in which to surmount each new difficulty as it rises.

You have made wise and helpful suggestions when we were pondering the ever present question, "What course shall I take this semester?"

One of the greatest problems facing a member of a graduating class today is the choice of vocation. Thank you for helping us to see that we should consider carefully before making a choice.

In all our school activities yours has always been an attitude of co-operation and you have given your wholehearted support.

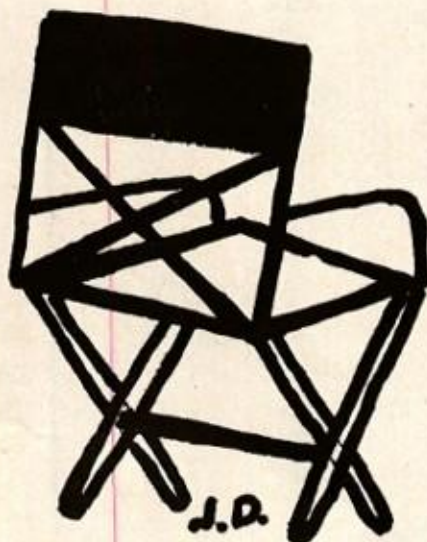

Thank you very much for your counsel, your guidance, and your quiet understanding of each pupil and his individual problems.

Thank you for the discipline which is so necessary in order to maintain a school of really high caliber.

Thank you for the warm smile which has meant so much to each of us.

Truly we shall never forget you, Mr. Hobbs. You will be an inspiration to us always.

Very Sincerely,
The Seniors of 1952

"True courage and courtesy always go hand in hand."

BEAT THE CLOCK...

Empty corridors . . . big, yellow buses arriving . . . sunshine and laughter filling the halls . . . bells ringing . . . sudden quietness . . . announcements and special comments . . . and so to class

- 8:25—Run, run! Make it to the assembly before the bell rings!
8:30—Classes pass! The scuffle of feet — the rush (?) to class!
8:45—Class meeting — a big decision to make.
10:00—Test . . . HELP ! !
11:50—Finally lunch hour and the rush to the cafeteria only to find you're the last one in line and they're having spinach.
12:30—Oh, no! It can't be that late!
3:25—Pep session — Rah! Rah! Ziss Boom Bah! Almost time for the bell; Go Get 'em Blackhawks! GO! GET 'EM! In seconds the halls are empty until time to begin a new day.

"Time flees."

Oh, Seniors! Oh, Seniors! Our fearful trip is done;
The class has weather'd every storm, the prize we sought is won.
Commencement's near, the bells we hear, the families all exulting,
For us bouquets, and caps 'n gowns, for us the gym acrowding
With apologies to Walt Whitman

MOTTO: To be useful rather than to be observed.

COLORS: Blue and White.

FLOWER: Pink Carnation.

We Were Different

Why be like all other classes? That's what we said when we gave those poor Freshmen a break. No initiation! Is it possible that some of the Freshmen were disappointed?

Also when we returned to school this year we

found that there had been a change or two. For one thing there were to be no exemptions. It had been five years since some of the Seniors had taken exams. Oh, woe! It was a little difficult to become used to the idea, but we realized that it was to our advantage.

BOYS' COUNCIL OFFICERS

(Left to right): Bob Honnold, President; George Matthews, Sec.-Treas.; Tom Coppess, Vice-President; Mr. Waitt, Sponsor.
Not shown: Keith Waitt, Sgt.-at-Arms.

The Boys' Council is an organization to which all High School boys belong. This organization was formed a few years ago to provide a wholesome, educational activity for boys comparable to the Sunshine Society for the girls. The

meetings consist of talks by businessmen, professional men or pupils.

The Boys' Council sponsors a convocation once every month. Ministers from various churches of Sheridan are invited to speak before the entire student body.

The "S" Club of Sheridan High School is an organization of our major lettermen of athletics. The purpose for this club is to promote higher standards of athletics in the

school. Each member has a definite responsibility because our school is judged by his actions.

Motto: "A real fighter never has enough breath left to say 'I quit!'"

"Every thought or act has moral significance."

LIGHT OF THE WORLD . . .

"Service above self" is the slogan around which all Sunshine activities are centered.

In 1950 the Indiana Sunshine Society launched a five-year scholarship program for the purpose of financing annually five Indiana high schoolgirls through a complete three-year nurses' training course. At the end of the program twenty-five nurses will have been educated by the Sunshiners. With the desperate shortages of nurses this program will contribute to the betterment of this situation. The scholarship has an actual cash value of \$375.00, the cost of most three-year courses in accredited schools of nursing.

Each of the five districts in Indiana awards one scholarship on a competitive basis secured from a series of tests. The recipient may select her own Indiana school of nursing. This program has been established through a \$100,000.00 fund raised by high school girls.

In 1951 additional aid was given the Riley Hospital in the form of a \$1,000.00 Emergency Sunshine Fund to assist in

emergency cases where parental aid was impossible.

In 1951, \$1,062.00 was expended for seven electric refrigerators for the James Whitcomb Riley Hospital. These refrigerators were used for special medicine requiring refrigeration.

Each society in the state may name three Sunshiners who may apply for the scholarships. The Sheridan society has an annual Easter Bake Sale to raise money for this project.

At the beginning of the year an impressive initiation service was held at the Christian Church. Each Senior girl acted as "big sister" to at least one freshman girl.

A Thanksgiving program was given in the assembly, and the society bought and decorated a large Christmas tree for the main hall.

Representatives attended the District Convention at Waynetown. Usually two bus loads attended the State Convention held in the spring.

The Music Department has come through with flying colors this year under the able direction of Mr. Young.

Eighteen soloists and six ensembles participated in the District Music Contest at Muncie. Individuals and groups winning Division I ratings entered the All-State Solo and Ensemble Contest at Butler University. They were: solos—Mary Johns, vocal; Gail Johnston, vocal; Philip Inskeep, clarinet; Marilyn Hershman, violin; ensembles — violin quartet: Marilyn Hershman, Alberta Wills, Marilyn King, Jane Wiles; vocal quartet: Lora Pettigrew, Arnola

Boyer, Judy Wright, Mary Johns. The band, orchestra, and choir entered the contests for their respective groups in May.

Over \$100 was netted on Tag Day, which was held to make money for Junior and Senior awards, contest fees and other expenses.

The beginning band is only a few years old. Its purpose is to prepare young instrumentalists for participation in the senior band. This organization is very valuable, as through it students become accustomed to playing with others.

FHA

The Future Homemakers of America is an organization of high school girls who are preparing themselves for the important job of homemaking. This is a national organization which is striving to encourage democracy, promote international good will, and emphasize the importance of worthy home membership. The emblem, a house supported by two hands, symbolizes that the future homes of America are in the hands of its youth.

Activities for the year included sponsoring a queen contest, a mother-daughter banquet, a party for the FFA boys, initiation, and installation of a new chapter at Noblesville, gifts sent to youth in a foreign country, a "come-as-you-are party", and an educational trip. Delegates attended the two district conventions.

FFA

The Future Farmers of America is a national organization that reaches from Washington to Puerto Rico and from Maine to Hawaii. This organization is for boys studying vocational agriculture in public secondary schools.

Members learn such things as: how to conduct and take part in public meetings; to buy and sell co-operatively; to become financially self-supporting; and to assume civic responsibility.

FFA is an organization built around leadership and character development, sportsmanship, co-operation, service, thrift, scholarship, improved agriculture, organized recreation, citizenship, and patriotism.

"Forethought and prudence are the proper qualities of a leader."

The Blackhawks put the finishing touch on their basketball schedule by defeating Attica. This win kept our conference slate clean, and handed the Hawks their second straight crown.

Sheridan joined this league in 1948.

In the spring a banquet is held at Lafayette, and a trophy is presented to the championship team. Here, too, the All-Conference team is honored. Sheridan is very fortunate in that we have had one or more boys placed on the All-Star squad every year.

CROSS COUNTRY

This was the second year that Sheridan fielded a cross-country team. The team's record, although not perfect, was a respectable one. Next year's record should be even better since Bobby Starrett is the only member lost by graduation.

FOOTBALL

The Sheridan Blackhawks found sailing rather tough this past season. The top game of the year was the Delphi-Sheridan battle, which the Hawks won by a single point. Winning ways eluded the Hawks though, and they collected but two more wins. One of these was from Kirklin. By winning this game, Sheridan retained the "Water Bucket" for another year.

A few more than the normal number of injuries kept the boys below their peak; however, Coach Stout and the players gave their all which, after all, is the important thing.

TRACK

The Sheridan team, under the supervision of Byron Stout, continued to dominate the county track scene. The Blackhawks won their fourth straight county crown, thus putting away another highly successful season.

Sheridan finished behind Delphi and West Side in the Hoosier Conference Meet even though the Hawks had previously beaten the Oracles.

The 1952 squad, led by several outstanding veterans, will be eager to match the track records of the past four seasons.

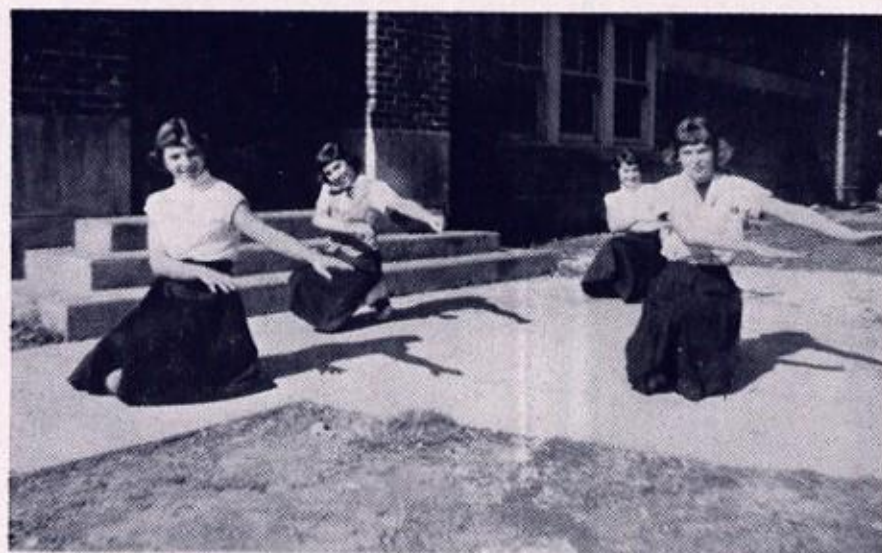

JR. HIGH SPORTS

Jr. High intramural games also play an important part in our school athletic program.

This year's second team was probably the best Coach Delph has ever had, at least in the won and lost column. The Jr. High "B" team rushed through its first 16 games without a defeat. Although the "A" team's record was not so good, its record was enviable. The "Little Hawks" were beaten in the semi-finals of the county tourney by Atlanta.

Larry Hobbs unveiled the 1951-52 Blackhawk team on November 16, against Delphi. The "Hawks" playing without Coppess, lost three games during the first part of the season. The three losses were to the Crispus Attucks, Elwood, and Kokomo. The boys finished the season in a stylish manner and had a Holiday Tourney victory and the County, Conference, and Sectional championships to their credit.

Few of the games were poorly played, and the "Hawks" played exceptionally fine ball against Lebanon, Tipton in the Sectional, and at the Regional.

In the first game of the Regional, Sheridan rolled over a cool Wabash team. Kokomo, ranked number one in the state, bettered Peru; and that meant the "Kats" and "Hawks" battled in the evening session.

The "Hawks" took an 8-0 lead in a torrid first quarter but were frigid in the second and third quarters as Kokomo speeded up and took the lead. The final score showed Sheridan on the short end of a 37-30 score.

Rex Pitts, Roland Wallace, Tom Coppess, and Morris Stafford will be lost by graduation.

MARCH OF TIME . . .

CALENDAR

AUGUST

- 30—You should have seen the smiling faces this morning! Was it because today was the first day of school or because we just had to attend school till noon? Today was Organization Day, but we all know it will take weeks to get "organized"; however, some progress was made as we elected class officers.
- 31—The Seniors of '52 made history today. They decided to eliminate Freshman Initiation! We don't know whether the Freshmen were happy about it or not.

CHRISTMAS SPIRIT . . .

If as you walked through the hall you noticed the decorated tree, the windows, the grade rooms, or heard the music of lovely carols, you could not help knowing that Christmas was in the air.

A symbol of joy is the Christmas tree. Our tree was especially beautiful this year. Decorated with bright balls and icicles, and sprayed with snow; a new little angel perched at the very top — there it stood — proud to be noticed and admired by all who walked by. The tree is purchased and decorated each year by the Sunshine Society.

The Art Department contributed its talent in making the atmosphere even more Christmasy. The scenes painted on the windows depicted the Nativity, shepherds, and angels, which emphasized the religious aspect and at the same time added color. This is only the second year that Sheridan High has had an art department. Much hidden talent has been uncovered and we are extremely grateful that so many students have found a means of expression in art.

The grade teachers show much artistic ability and ingenuity in helping their pupils decorate the rooms. All the grade children look forward to the Christmas party with its gift exchange and refreshments.

Early in December the entire student body participated in a Christmas music program presented to the P.T.A. Numbers by the band, vocal ensembles, and grades made the program a huge success.

Our school has several Christmas traditions, which include the giving of cheer baskets and caroling in the halls.

At Christmas time each of us should try to make others happy by giving, sharing, hoping, loving. The students of Sheridan High School have truly expressed the Christmas spirit, not only this year but also in the preceding years.

“Heap on more wood — the wind is chill; but let it whistle as it will, we’ll keep our Christmas merry still . . .”

MEET THE PRESS . . .

"Where in the world is that rubber glue?"

"Don't ask me. Hey, Joe, what was the score of the Delphi game?"

"Did you draw those lines right? This picture won't fit in that small space."

"How does Lewis spell his last name?"

"O-o-h! Now look! I cut that picture in half. I'll just have to take it off. Where's the benzene, somebody hand me the benzene!"

"But you've got to hand the write up in tomorrow! It goes to the printer Wednesday!"

"It's almost eleven thirty and am I dead!" etc., etc.

Yes, it's a constant buzz of activity when the Annual staff is at work.

First the photographer arrives. Then photos must be mounted, advertising sold, copy written, and finally proof-reading.

The experience of helping to put out the Annual is a valuable asset to anyone. Every hour of back-breaking picture-pasting and slaving to say just the right something about each group or individual is forgotten when you see your work actually in print.

We of the Syllabus '52 staff are indeed grateful to Mrs. Elma Griffith, our yearbook sponsor for the aid and guidance she has given us in creating our annual.

. . . from the Editor

Thank you, everybody, for your splendid work and co-operation in making possible the 1952 Syllabus.

Especially I wish to express my gratitude:

to Mr. Hobbs for willingness to help and make suggestions whenever we asked;

to Mrs. Griffith for guidance and understanding when we made mistakes;

to Mrs. Cline and Mr. Richardson, class sponsors, for their wise counsel;

to the faculty for co-operation in every way;

to the businessmen for financing the Annual by advertising;

to the entire staff for painting the pictures of the classes, activities, and individuals on the pages of the 1952 Syllabus to be tucked away in a corner of our memory and treasured always.

Attention, students of Sheridan High School! WSHS-TV takes pleasure in presenting "This Is Your School", based on the radio version of "This Is Your Life." The program will review major and minor events in the school lives of students in the graduating class of 1952.

Everyone relax in his favorite easy chair with a couple of cokes and a monstrous dish of "Crunchy Bros." potato chips (with the sack handy for refills) plus, of course, a giant size tissue to wipe away a tear that might fall because of a fond memory, while we hear a word from our sponsor.

"FRIENDS, "CRUNCHY BROS." POTATO CHIPS

ARE **THE ONLY** POTATO CHIPS. "CRUNCHY BROS." **NEVER** GET WEAK AND LIFELESS AFTER THE SACK IS OPENED. THESE POTATO CHIPS STAY FRESH AND "CRUNCHY" FOR A MONTH. SO ALWAYS BUY "CRUNCHY BROS."! THEY COME IN THE PINK AND PURPLE PACKAGE!"

Now the curtain rises on the first part of "This Is our School!" The setting of our story, or your story, is of course, dear old Alma Mater, at Sheridan, Indiana, in front of the south door. The time — one day near the first of September; the characters — you.

shuffling, dancing, (or any other way to get there) to school. Which one is you? Are you that well scrubbed little girl who's hanging on to Mother's hand for dear life, or that boy with the dirty face, flying gleefully down the slide. He left home as well scrubbed as the little girl, but just couldn't resist knocking Herbie in the nose, and beginning a scuffle which ended on the ground.

There goes a miniature gentleman who wouldn't think of letting Dad bring him to school. He must walk **all** the way alone and carry **all** the books. Man of the world? I should say. He's in the First Grade!

As our scene changes to the First Grade room, we see the rows of little desks, and colored pictures on the wall, and the cloak-rooms with the sliding doors. Mother kisses her little darling goodbye, tells teacher to be careful with Corky, as he's really a weak child, and with a tear in her eye leaves First Dayer alone to face the world.

The year moves on. By now you've learned the ABC's and can count like a whiz. You're doing well in reading, too, except for those big words like "**don't**" or sentences such as, "Will everyone please be quiet?"

See that little book lying on teacher's desk? Do you know what that was for? Black marks!!! Who's that standing in the corner? (Remark from one of living room viewers) "Hey, that's me!"

It is, but, Senior, watch that grammar!

We don't have too much time, so we'll leave Grade I now. In the Second Grade you were just a little older, you certainly could read better, and — workbooks were fewer. You had those **hard**

Let's switch over to the next year. What's going on there on stage? I do believe you are having a minuet. My, all that practice in the room at noon and recess (you know which room; south end of the basement, first door.) Those wigs you boys wore were made from stocking tops and cotton, and girls, the crepe paper dresses were really beauties. Watch this a minute. First the boy bows, then the girl curtsies. Isn't that a kind of chain step you had to do?

Friday afternoon was art class. Remember how you used to color the little squares on the paper? What rare designs!

I guess that probably the parties and special days were most eagerly awaited. There was Doll Day, and Valentine's Day with the big Valentine box, and St. Patrick's Day when everyone wore something green. Then there was Hallowe'en when you dressed up to scare the high school kids.

Several times, for a Christmas treat, you actually went to the show. Here's a scene from "Bambi." Those shows were so sad. There was one in which a little dog was killed and you all went back to school with very red eyes.

After the movie it was time to distribute the gifts (every year you drew names); then, Refreshments!!!

at that! Someone's going to fall down if — Oh, well, you're still young.

Our scene now shifts to the Sixth Grade Room. (O.K., Joe, turn the camera on scene 12D.)

This, my friends, is you near the end of your sixth grade year. You really felt grown up then, didn't you? Just think; almost ready for Junior High! Can you recall the class picnic out in the woods? Fun, hey?

You could hardly wait for vacation to come and go because next year you'd be practically **up there!**

Part Two of "This Is Your School" will con-

tinue in just a moment after a word from our sponsor.

FRIENDS, DO YOU FEEL TIRED, IRRITABLE, OLD BEFORE YOUR TIME? TRY "BUBBLING OVER" PILLS. THEY'LL . . ."

And now for Part Two of "This Is Your School." The camera is focused on the Assembly. Time — 8:25 a.m.; characters — you!

Do you remember how big you felt? For the first time each class was held in a different room. There was not just one teacher, but six or seven. It was pretty exhausting, climbing stairs, for the

first few weeks, but getting adjusted didn't take long.

(Now, Joe, let's have some class scenes.)

Here is geography class. There go two of you up to the map. Those contests must have really been fun. The history books were six weeks late that year. You can see that this is arithmetic class with five, eight, twelve people figuring at the board. Let's see, wasn't "Snowbound" in your Lit. book?

Naturally, there were class parties, and that was the first year for class officers. Now — look at this scene. It's Christmas and the class is giving the play "Why the Chimes Rang."

The Eighth Grade wasn't too different except for an introduction to civics (a test a week). Also you were closer to that goal, **High School**. I'll bet everyone remembers the mock wedding given at the class party.

Through both years Jr. High basketball was A-1 important. This scene shows that tourney at Atlanta. Remember the two bus trips? Brrr! It makes me cold to think about it. The first year, popcorn was sold, and the second, cokes; (frozen hands)!

Soon came the summer and then fall, that wonderful fall when you were Freshies bowing to the

high and mighty Seniors. The first big event was initiation — hey-day for Seniors, doomsday for Freshmen. I hope the TV audience is watching closely, as it will be a little difficult for each person to decide which creature he is supposed to be. You wore your clothes wrong side out, lipstick on your faces, and the girls couldn't comb their hair. What a day!

Now we'll see some quick classroom scenes. This is the year in which you begin to choose your own subjects.

Here is algebra in which you learn to find the unknown quantity, but for the first few weeks feel

All high school students are automatically members of either the Sunshine Society or Boys' Council.

It looks as if you really had fun. Remember the class party? This flash back shows the humorous operation you performed, in which you removed rope, coke bottles — how could you forget?

you, as you proudly watched Alma Mater's undefeated football team leave the field in a blaze of glory.

These are only a few of the big events which place another milestone in your high school lives.

The next year you entered the class of Wise Fools (Sophomores) and shook hands with World History. Here's a glimpse of test day, Friday naturally. (..... was born in the year in the city of)

As Sophomores are supposed to be sophisticated, you had a skating party at Rollerland. (Due to the smallness of this studio it will be impossible

to show this sketch.) I suppose everyone survived with no broken bones.

Another important event occurred at about this time, one which is a "Never-to-be-Forgotten."

Alma Mater shone again, this time in basketball. Before we (and I include myself because I, as well as you, am an ardent enthusiast) knew it—Semi-Finals, here we are! The team played the final game there, coming closer to the goal than they'd ever come before. Hats off!

It was in your Junior year that you presented your first real class play. That's Miss Brooks by

"Popcorn! Who'll buy some popcorn?" was the familiar cry at games. Cokes went over (or down) well, too. You worked hard because there was already lots of interest aroused concerning that SENIOR trip.

As for classes, you learned that the Panama Canal was built in — let's see, when was it? Oh, you know, anyway. You were reading about Poe in English, and maybe struggling through book-keeping. Driver training became a reality for some of the more daring (or more timid) ones.

My friends, we are now nearing the end of the story. You have come to the Senior year, that goal toward which you have striven for many years. Shall we begin with classes?

This is a lively discussion on current events in government, one of our most valuable subjects. Here is a scene from chemistry class. (Did anyone ever complete that book called "How to Blow Up the Chemistry Lab. in 10 Easy Experiments?")

There's someone at the board diagraming a sentence in grammar, and I do believe one of you boys is quoting poetry in English Lit. I wish I knew what all those shorthand symbols mean.

I observe there were numerous outside activities. Who are all those people in the line waiting to pay for pictures? Over here — (a little closer with the camera, Joe) over here the annual staff is having a big pow-wow.

You're still selling at ballgames, I see. "Do you mean to say that's all the money we made to-night?"

Christmas here already? Impossible! But it's true. Look at the marvelous work the Art Department has done in decorating the windows.

Didn't you feel awful when you found out there

would be no exemptions? Oh, well. You'd already set one precedent by not having initiation for the Freshmen, so you might just as well have exams.

My, the year did fly. The tourneys, the Syllabus going to press, contests, scholarship exams, trying on graduation robes.

And then that was it, wasn't it? First, there were exams again, and then everyone jumped on the bus and took off on the long awaited SENIOR trip. This is one of our last scenes showing you getting home, dog tired.

the finale and now, in this scene, it's Commencement night. All the proud Mothers and Fathers are sitting out there, thinking about the morning twelve years ago, when they hurried their little First Dayer off to school.

It's a little sad, isn't it? (Now, this is why I said to be sure to get that giant size tissue.)

No one can tell me that your school days aren't the best days of your life. You agree with me, don't you?

So get busy, viewers. Make your school proud of you.

Young Mrs. Scott, attending her first ball game, listened patiently to her husband's brief explanations. But when he sprang from his seat and waved his hat madly, Mrs. Scott exclaimed: "What on earth's the matter, John?"

"Why," he answered, "didn't you see the fielder catch the ball?"

"Of course," said Mrs. Scott quietly. "I thought that was what he was out there for."

"Yes," said the caller. "Tell him Mr. Brown called."

Dickie got a pencil and paper and said, "Mr. Brown? How do you spell it?"

"B-R-O-W-N."

A moment of silence, then a very small voice asked plaintively, "How do you make a 'B'?"

"Say, Dad . . ." began the lad after a while. Then, "Oh, well, never mind."

"Go ahead," said the father. "Ask questions. Ask a lot of questions. How else are you going to learn?"
